Digital Color Printer **UP-DR100**

Sony is proud to introduce the new UP-DR100 Digital Color Printer, which offers high-speed and large-volume printing via roll printing technology. Incorporating Sony's dye sublimation printing technology for image stability, the UP-DR100 produces borderless 3 1/2 x 5, 4 x 6 and 5 x 7 inch photo-quality prints. Together with easy maintenance and convenient front-loading operation, the UP-DR100 is the ideal choice for a wide range of digital photo printing services.

- Photo-quality prints are produced via a combination of dye sublimation printing technology and Sony Digital Photography Paper (UPC-R35/R46/R57)
- High speed printing of approx. 20 seconds for 3 1/2 x 5 inch images
- Equipped with a SCSI-2 interface and a 32 MB spool memory for high efficiency
- High volume printing of 400 prints at 3 1/2 x 5 inch, 350 prints at 4 x 6 inch size
- Sony Digital Photography Paper offers superior image stability, guarding against the effects of light, heat and humidity
- Front-loading operation allows for easy maintenance and it can be located in minimum space
- Gray balance adjustment capability
- Three standard print sizes (3 1/2 x 5, 4 x 6 and 5 x 7 inch)
- Borderless prints
- Paper and ribbon equipped with IC chip, which indicates the remaining number of prints and prevents mismatching of different paper sizes and ribbons
- Compact size
- Space-saving design incorporates recessed interface connections on the side panel for easy set up
- Real-time monitoring of the remaining number of prints, the total number of prints, the printer status and any error status allows remote diagnostics
- Printer drivers for Windows® 98/ME/2000, Windows NT® 4.0 and Mac OS® 8.5 or later
